## TIPS FOR LFT FORM COMPLETION

The form is straight-forward, with a submit button once complete by each traveler. You will include your email address, so you will also receive a confirmation of receipt. This can be done on arrival or even before you land.

If you wish testing at *Silver Thatch Guest Services* on Frank Sound Road (map at [www.silverthatchcayman.com](http://www.silverthatchcayman.com)); enter “SILVER THATCH GUEST SERVICES” in the Workplace Name Space and under your Villa Address.

If you prefer At-Villa testing (6 or fewer at US\$50/test or 7 or more at US\$40/test); enter “AT-VILLA TESTING” in the Workplace Name as well as in the Villa Address.

### Workplace Name

Please provide the name of your workplace; if a student, please advise the name of the school.

Silver Thatch Guest Services

*\*Required*

### Local Address/ Hotel Name

MRN :  
Name :  
Age/Sex :  
DOB :  
Passport No :  
Consulting Dr : Dr. Jyoti Jادیyappagoudar  
Reported On : \_\_\_/11/2021

#### DIAGNOSTIC LAB

SARS-CoV2 ANTIGEN TEST	Result
Lateral Flow Test- Antigen	NEGATIVE

**Note:**

**Positive results** indicate the presence of viral antigens, but individual history and other diagnostic information is necessary to determine infection status.

Positive results do not rule out bacterial infection or co-infection with other viruses.

Negative results from individuals with symptoms beyond seven days should be treated as likely negative.

Confirm with a molecular assay, if necessary.

Negative results do not rule out SARS-CoV-2 infection.
